EVERGREEN SEEDLINGS

In the growing of evergreen seedlings the importance of seed sources cannot be over emphasized. We spare no effort in securing seed that we know is true to type and collected only from the best of stocks. All native seed is collected by our own men. We have a particular section of sandy loam on which we grow our seedlings. This produces a far better root system than is usually found on seedlings.

Prunus Pennsylvanica (Pin Cherry)		

Prunus Pennsylvanica (Pin Cherry)

PHLOX

An ornamental tree that deserves a great deal more attention than it gets. A very interesting ornamental tree growing 25 to 35 feet high. The characteristic cherry blossoms are beautiful. The small red cherries following are very attractive and are relished by the birds.

TO OUR EASTERN CUSTOMERS! We can give you some mighty fast freight service! All our eastern freight crosses Lake Michigan on a carferry and is rushed east on through routes. Not only is it very rapid but rates are about 20% lower, as it cuts distance by hundreds of miles, by not going through Chicago.
